
ENHANCEMENTS

[ENG-3569] – ‘Any address’ field added to My Archive Advanced search, Smart folders, and search results filter

[ENG-4371] – Legal held data can be exported from the Search views page

BUG FIXES

[ENG-4385] – Resolved issue around message’s body displaying blank in the UI

[ENG-4482] – Fixed failing PST exports done through the UI

[ENG-4495] – Creating a user with multiple email addresses through LDAP does not show duplicate email address on user’s first login

PARTNER API

[ENG-4416] – Standardized API calls to manage tenants accounts, resources and user objects

[ENG-4564] – Resolved issue around API updates for the Lotus On-Prem collector

Upcoming release

Our engineering team is working on our next release (tentatively scheduled for end of August 2013). Potential work for that release include:

- Search & filtering on legal hold.
- Speed up PST legacy data import process.
- Small UI bug fixes and improvements.
