

ENHANCEMENTS

Launch of the turnkey, fully automated Postini GMD Migration Tool

- [ENG-2538] – Message recovery options – Ability to restrict forwarding to an external address
- [ENG-3836] – Updated retention policy popup window text for clarification
- [ENG-4991] – Search Admin Plus can manage retention policy as the Account Owner can
- [ENG-4995] – Certified new collection mechanism (SMTP) for Google Apps
- [ENG-5255] – Certified archiving support for Microsoft Exchange 2013

BUG FIXES

- [ENG-4466] – A POP3 collector can be added even if IP filtering is in used by customers
- [ENG-4962] – Legacy NSF messages display body content properly in the archive
- [ENG-5071] – Resolved issue with Legal Hold button no lighting up when 'ON'
- [ENG-5099] – Drag and drop does not error out when attempted to be used

PARTNER API

- [ENG-4823] – A partner username cannot be updated to use single quotes – preventing API calls from returning '401 Unauthorized' error
- [ENG-5127] – API call to request login token does not fail to generate when using the user UUID reference.
